## iRhythm Raises \$6.5 Million

Posted on: May 15th, 2009

iRhythm

iRhythm Technologies Inc., a San Francisco-based developer of a cardiac monitoring device, has raised \$6.53 million in new VC funding, according to a regulatory filing. Return backers include Mohr Davidow Ventures, Synergy Life Science Partners, Stanford University and the UNC Kenan-Flagler Private Equity Fund. It had previously raised \$12.5 million, plus a \$10,000 business plan competition.
